Need to keep Lake Ontelaunee well preserved and open up access further north on the lake. A way to get funding for the preserve is to sell access rights for small, non-powered boats.

I believe that all 3 areas waste significant amounts of taxpayer dollars. Needless road improvements and too many maintenance staff members. Subcontractor could do the work quicker and cheaper.

After our children, the farmland is the most treasured-keep it that way. We need no more housing development.

Along the Maiden creek P.S. – develop former “Tannery” property! Donate to library for new building.
