DAMAGE TYPE DEFINITIONS

- Inaccessible**
 - Unable to access property
 - IE: Bridge out leading to property

- Affected**
 - Minimal damage to the exterior of the home and non-essential basement
 - Ingress / Egress to residence may be hampered
 - Some shingles and/or siding missing
 - Dwelling is livable without repairs
 - IE: Stone driveway is washed away due to heavy rains

- Minor**
 - Damage that does not affect the structural integrity
 - Property is damaged, but usable
 - Damage to chimney, windows
 - IE: Roofing shingles blown off due to high winds,

- Major**
 - Significant structural damage and requires extensive repairs
 - Structure cannot be used until repairs are made
 - IE: Roof blown off due to high winds, failure or partial failure of foundation

- Destroyed**
 - Property is no longer there
 - Repairs to structure not feasible
 - Complete failure of two or more major structural components (collapse of foundation, walls, roof)
 - IE: Structure has partially collapsed

- Damaged (Public Only)**
 - Property is usable, however repairs may be required
 - Critical components of the facility are inoperable (pumps, electric, etc.)
 - IE: Sewer Treatment is offline due to inoperable pumps

FLOOD DAMAGE TYPES

	AFFECTED	MINOR	MAJOR	DESTROYED
Flood water is in: Basement 1 ST floor of structure <u>with</u> basement 1 ST floor of structure <u>without</u> basement MOBILE HOME	Less than 1'	1' or more, damage to utilities	1' or more	
			2'- 4'	
		Below floor system	Belly board, ductwork, subflooring	

Quick Guide to Determining Damage Category

YES Does it need temporary repairs to be lived in now? Yes - Minor No - Affected	Is the <u>structure</u> usable as it is?	NO Can it be made useable again with extensive repairs? Yes - Major No - Destroyed
